Thanks to the parents and staff that have been working with the RISC organization. The Re-Inventing Schools Coalition is working with MSAD #15 as we examine our shared vision and the use of standards in the assessment system. There will be a public meeting for parents and community members on this topic in the near future.

You may have heard your fourth grader talk about Dave Carpenter from the Maine Turnpike Authority. Dave has been visiting the fourth grade classrooms discussing map skills and geography of Maine. All reports are that his information has been well received.
