RISC Co-Founder to Speak

Richard DeLorenzo, co-founder of Re-inventing Schools Coalition (RISC)

Thursday, March 25, 2010

6:30PM at Gray-New Gloucester High School

MSAD 15 and the Maine Department of Education have partnered with RISC to examine the benefits of performance-based education as a means of improving student achievement. Mr. DeLorenzo will speak on his experience with performance-based education and how it may benefit MSAD 15. All members of the Gray and New Gloucester communities are invited to hear Mr. DeLorenzo speak on this important topic.

March is National School Nutrition Month

The GNG Food Service Department appreciates the opportunity to offer nutritious and affordable meals to students each day. Please take a few moments and give us some feedback about how we are doing. Go to www.msad15.org to take a quick survey.

Thank You

Amy Bacon

Food Service Supervisor

The survey will be available

Until March 31, 2010

Students in grades 3-12 will take the survey in school. We are asking parents of K-2 students to complete the survey at home with parental help.

Camp Middle Moose

SPECIAL NOTICE: Openings are still available for Camp Middle Moose! CMM is a residential camp experience for current 5th, 6th, 7th & 8th graders, August 15th -21st at Moose River Outpost in Jackman, Maine. There are numerous outdoor activities including canoeing, kayaking, hiking, team sports, rockwall climbing, white water rafting, campfire activities, and more. The cost is \$450, which includes staying in a log cabin, all meals & snacks, activities (paintball an additional \$15 fee) and transportation. Brochures and applications are available in the main office or online at www.msad15.org. If you have any questions, feel free to contact Theresa Allocca at 657-9422 or via email:tallocca@msad15.org

Weekend Edition of 'Figure It Out!'

Email answers to *scarbonneau@msad15.org*

Congratulations to the LaCerde, Hanson, Moreau, Targett and Buck families for last editions figure it out!

Farmer Giles has four sheep. One day, he notices that they are standing in such a way that they are all the same distance away from each other. That is to say, the distance between any two of the four sheep is the same. How can this be so? (hint a square would not work!)
